ICJIS Mission Statement

(Excerpted from the ICJIS Strategic Business Plan)

The Mission of the Integrated Criminal Justice Information System is to enhance public safety, improve service to the community, and promote quality justice and law enforcement decision making by sharing information that is timely, secure, reliable and comprehensive.

ICJIS Managing for Results Goals

- ★ Improve productivity and increase cost effectiveness by reduign redundant data collection and input efforts among criminal justice agencies
- ★ Reduce or eliminate paper-base processing
- ★ Provide information that will improve service to the community
- ★ Ehnance decision-making and improve staff productivity by electronically sharing case related information from time of arrest, among criminal justice agencies
- ★ Insure that the criminal justice sytem has timely and accurate information for making quality decisions

ICJIS Focus Area -- Common Case Number ('CCN')

- ☞ A 13-year effort
- ☞ A key foundational project for ICJIS integration
- ☞ Culmination/implementation on January 2, 2003
- ☞ Significance of CCN –
 - The use of a common, across system use of an identifier
 - The use of a unique identifier that stays with the case throughout its existence in the criminal system
- ☞ Aspects –
 - There are eleven possible entry points from which a case number may be assigned
 - 40+ professionals (business and technical) are working on the project
 - weekly application design meetings are underway
 - JAD sessions have over 640 staff hours invested and 300 technical staff hours invested
- ☞ Challenges –
 - Adequate attention to the myriad details involved in identifying business processes and determining necessary changes
 - Complexity of moving a paper-based process to an enhanced, reengineered and automated process
 - Determination of the exact project scope
 - Significance and pressures from the interdependencies of the criminal justice system
